Re: Receipt of Mineral Exploration Progress Report and Notice of File Closure, Chemical Lime Core Drill Project, E/045/105, Tooele County, Utah

Dear Mr. Smith:

Thank you for your letter received by the Division September 2, regarding the status of the Chemical Lime Core Drill exploration project, located in Section 36, T1S, R7W, SLBM, Tooele County, Utah. Your letter meets the notice requirements of Rule R647-2 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq., Utah Code Annotated, 1953.

Incorporation of this exploration area into you active Grantsville Quarry (M/045/028) is presently covered by the Chemical Lime reclamation contract dated March 8, 1993. You should be aware that only the North ½ of the NW ¼ of the NW ¼ of the NW ¼ and the North ½ of the NE ¼ of the NW ¼ of the NE ¼ of Section 36, T1S, R7W, SLBM is presently covered by this plan. Any expansion beyond this point will require an addendum to this plan to be filed with this office. John Blake of the School and Institutional Trust Lands Administration should be notified before you begin mining in this area as they are the owners of the material that will be removed.

The exploration file E/045/105 will be closed at this time. You will not be required to pay any future fees pertaining to this exploration permit.

Thank you for your continued cooperation. Please contact me if you have any questions regarding this letter.

Sincerely,

Doug Jensen  
Reclamation Specialist
